

# Ontrack® Data Recovery

## Do-it-Yourself Data Recovery Made Easy

The loss or corruption of critical data can have staggering financial, legal, and productivity ramifications on businesses and home computer users alike. Important documents are often difficult or even impossible to re-create. Ontrack® EasyRecovery™ software helps you quickly and cost-effectively recover, repair, and restore your valuable data.

Losing data can be an extremely stressful situation for any computer user. Whether the lost files include critical business or financial information, precious digital photos, or important emails, a feeling of panic and helplessness often sets in when you realize you cannot find or access the data you need.

Fortunately, when files are lost, deleted or corrupted, you do have options. While re-creating lost data can be impossible or simply too time-consuming to be a realistic option, data recovery services and software from Kroll Ontrack can help you quickly get your data back.

Ontrack EasyRecovery software recovers and repairs lost or inaccessible data quickly and easily. Kroll Ontrack, with more than 20 years of data recovery experience, created Ontrack EasyRecovery as a simple, do-it-yourself option for data recovery.

# Ontrack® Data Recovery
